

Giroform ULTRA (reels)

Giroform, Howard Smith Paper Group's high performance carbonless paper range, has a reputation for copy quality, ease of use and environmental sensitivity that others just can't duplicate. Manufactured by Mitsubishi Paper Mills, one of Europe's most advanced paper producers, Giroform's microcapsule system generates the crispest, cleanest copies possible. Every detail of the original is preserved; nothing is added, nothing taken away.

Giroform Ultra is a lighter grade of high performance carbonless paper that allows larger sets of copy sheets to be created. The reduction in weight doesn't mean a reduction in printability, though. On press, an improved base formulation ensures that high-speed sheet printing remains a smooth, trouble-free process.

Giroform's advanced microcapsule system copies only what you want to copy, sharply and clearly, and middle sheets, available in white and a choice of five colours, provide excellent copy contrast and definition.

Like all Giroform products – and unlike any other range of carbonless paper – Giroform Ultra carries the Nordic Swan environmental management mark.

Product features and benefits:

Forest Stewardship Council® certified

Manufactured to the international environmental standard, ISO 14001

Nordic Swan environmental accreditation

Associated qualities:

Giroform, Giroform DEKA, Giroform ACCESSORIES

Environmental statements:

When printing on Giroform Ultra, you may wish to include a combination of the following environmental statements on your work. Giroform Ultra:

- contains material sourced from responsibly managed forests, **certified in accordance with the FSC (Forest Stewardship Council)***
- is certified with the Nordic Swan eco-label, ensuring it has been produced with methods that create minimum environmental impact
- is manufactured to the ISO 14001 international standard, minimising negative impacts on the environment

* Omit bold copy if your company or printer is not FSC certified

FSC logo usage guidelines:

The FSC logo can be used on publications printed on Giroform ULTRA (reels). Should your company or printer have certification to the standard, you should use FSC MIX logo from the FSC Product Labelling Guide. An example is shown below:
