

ON Business

ON is an uncoated paper range developed to respond to the needs of today's commercial printers. From low ink absorption to high speed printing on press, it's your everyday stock but with a lot more added value benefits. ON has other advantages too, all folio grade has FSC certification. It's the multifunctional paper of today and can adapt itself to a variety of print applications, including litho and digital technologies, and for stationery, it offers laser and inkjet compatibility.

Make ON Business your corporate stationery stock and you're in business. Designed specifically for pre-print applications, its reduced moisture content means it can take offset printing and subsequent laser or inkjet printing in its stride. Its bright whiteness and smooth finish give printed images and graphics a real lift.

Product features and benefits:

Forest Stewardship Council® certified

Manufactured to the international environmental standard, ISO 14001

Elemental Chlorine Free bleaching process

Pallets set at optimum heights to suit most in-feed systems

Delivered on flexi-pallets as standard, saving preparation time and money

High bulk characteristics giving improved stability when running on high speed presses

Enhanced surface characteristics exhibiting low ink absorption

Guaranteed for laser and inkjet printing up to 120g/m²

Associated value based services:

Bulk packed only; the supply of customer specified quantities of paper, subject to agreement

Assured availability; an attainable service agreement ensuring key product lines will always be in stock

Associated qualities:

ON Offset

Environmental statements:

When printing on ON Business, you may wish to include a combination of the following environmental statements on your work. ON Business :

- contains material sourced from responsibly managed forests, **certified in accordance with the FSC (Forest Stewardship Council)***
- is manufactured to the ISO 14001 international standard, minimising negative impacts on the environment
- is manufactured from pulp that has been bleached without the use of chlorine compounds using oxygen (elemental chlorine free), which are considered harmful to the environment

* Omit bold copy if your company or printer is not FSC certified

FSC logo usage guidelines:

The FSC logo can be used on publications printed on ON Business. Should your company or printer have certification to the standard, you should use FSC MIX logo from the FSC Product Labelling Guide. An example is shown below:
