

Crown Business Forms

The Crown Business Forms range is made up of a selection of different qualities.

Crown Flexform is stocked in 60 and 70g/m². The 70g/m² is guaranteed for continuous laser printing from packs or reels. With a whiteness of CIE 139 it produces good print results and toner contrast.

The new multi-purpose pre-print grade from Crown van Gelder, **Crown Premium** has high whiteness levels (CIE 160) and is guaranteed for sheet, pack and reel-fed laser processing. Stocked in 80, 90 and 100g/m² in a full range of widths

Crown Premium CBS2 is approved by APACS for use in credit documentation within the UK Clearing Banks systems. CBS2 specifications include OCR characteristics, and the high white shade of CIE 160 offers high ink and toner contrast, optimising machine scanning and readability. Crown Premium CBS2 is guaranteed for laser processing for cut sheet, packs and reels.

Crown Offset Laser is available from stock in 110 and 130g/m². It is guaranteed for pack and reel-fed laser processing and comes with a whiteness of CIE 139.

Crown Laser Card is guaranteed for all laser printing processes, sheet, pack and reel-fed. A whiteness of CIE 139 ensures suitability for use as business reply cards, coupons and file cards, amongst others. Available in 150 and 170g/m² from stock.

Product features and benefits:

Forest Stewardship Council® certified

Manufactured to the international environmental standard, ISO 14001

Guaranteed for continuous laser printing

Environmental statements:

When printing on Crown, you may wish to include a combination of the following environmental statements on your work. Crown :

- contains material sourced from responsibly managed forests, **certified in accordance with the FSC (Forest Stewardship Council)***
- is manufactured to the ISO 14001 international standard, minimising negative impacts on the environment

* Omit bold copy if your company or printer is not FSC certified

FSC logo usage guidelines:

The FSC logo can be used on publications printed on Crown Business Forms. Should your company or printer have certification to the standard, you should use FSC MIX logo from the FSC Product Labelling Guide. An example is shown below:
